

## CREATING A INFUSED PRE-ROLL IN METRC (effective April 1, 2019)

**Note:** Only Processors are allowed to create Infused Pre-Rolls.

1. Create the new infused pre-roll item in your inventory:
  - a. Category: Infused Pre-Roll
  - b. Unit of Measure: Each
  - c. Unit Weight: Total weight of Infused Pre-Roll (includes paper, filter, crutch, usable Bud or Shake/Trim, rosin, kief).

The screenshot shows the 'Edit Items' window in METRC. The 'Item # 1' section is active. The 'Item' field contains 'Infused Pre-Roll - 1 g'. The 'Unit of Measure' is set to 'Each'. The 'Name' field contains 'Infused Pre-Roll - 1 g'. The 'Unit Weight' is set to '1.16' and the 'Unit of Measure' for weight is set to 'Grams'. The 'Category' is set to 'Infused Pre-roll'. A blue callout box points to the 'Unit Weight' field, listing the components: Flower (1 g), Rosin (0.1 g), Kief (0.03 g), and Paper & Cone (0.03g). At the bottom, there are 'Save Items' and 'Cancel' buttons.

2. Select the existing package of buds or shake/trim, kief, rosin, etc., from your inventory and select the create new package button:
  - a. Package #1: Enter the amount of kief being used for the pre-rolls from the existing package (right hand side).
  - b. Package #2: Enter the amount of rosin being used for the pre-rolls from the existing package (right hand side).
  - c. Package #3: Enter the amount of usable marijuana being used for the pre-rolls from the existing package (right hand side).
  - d. New tag: Select a new package tag from your inventory.
  - e. Item: the newly created Infused Pre-Roll item.
  - f. Quantity = number of pre-rolls being created.
  - g. Package Date: enter date packaged.
  - h. Production Batch: YOU **SHOULD** CLICK PRODUCTION BATCH  
\*\*\* this will clear all test results associated with package.

**Note:** The newly created package will require Potency testing prior to transfer to retail for sale.

Example of creating 1,500 Infused Pre-Rolls:

The screenshot shows a 'New Packages' window with the following fields and annotations:

- New Package # 1** (clear)
- New Tag:** ABCDEF012345670000014777
- Item:** Infused Pre-Roll - 1 g
- Quantity:** 1500, Each
- Package Date:** 04/09/2019, today
- Production Batch**
- Prod. Batch No.:** ABCD
- Remediate Product**
- Mini-template** section:
  - Quantity: ex. 100.23, - Select -
- Package # 1:** ABCDEF012345670000014775, Quantity: 45 Grams, Packaging: - new total will be 64 g
- Package # 2:** ABCDEF012345670000014776, Quantity: 150 Grams, Packaging: - new total will be 91.748 g
- Package # 3:** ABCDEF012345670000013552, Quantity: 1500 Grams, Packaging: - new total will be 94 g

Annotations (blue boxes):

- 1,500 ea Infused Pre-Roll (points to Item and Quantity)
- Production Batch is selected since Item Category is changing \*\*\* (points to Production Batch checkbox)
- 45 g Kief (points to Package # 1 Quantity)
- 150 g Rosin (points to Package # 2 Quantity)
- 1,500 g Bud (points to Package # 3 Quantity)

Buttons: Create Packages, Cancel
