Why is there no multi-Facility create such as that available in Employees, Strains, and Rooms?
Certain Item Categories require the selection of a pre-existing Strain. Verifying and informing that the specified Strain exists in all of the selected Facilities would be convoluted and complex to inform. For this reason we have opted to not add the ability to create Items in multiple Facilities at the same time.

2. Select the existing package of buds or shake/trim from your inventory and select the create new package button:
 - a. Enter the amount of usable marijuana being used for the pre-rolls from the existing package (right hand side)
 - b. New tag = Select a new package tag from your inventory
 - c. Item = The newly created pre-roll item
 - d. Quantity = number of pre-rolls being created
 - e. Enter Package Date
 - f. DO NOT CLICK PRODUCTION BATCH
